

## **CYMBIDIUM NURSERY TOUR**

We have been invited to join the members of the Cymbidium Club to participate in their Cymbidium Nursery Tour on the Sunday 4th June 2000. The group will meet at Malcolm Osbourne's home at 65 Milne Road Tea Tree Gully. From here the group will move to Peter Chiles Nursery at 5 Peacock Avenue, Gawler and then to Dean Roeslers, 14 Lawson Road, Kaleeba, for a BBQ lunch at approx. 12:30pm. A donation of \$2.00 per person will help cover costs.

Interested members should contact the Secretary of the Cymbidium Club, Yvonne Long-Bottom, 8258 3435 by 26th May or as soon as you receive this Gazette.

---

## **NEW PLANT LABELS**

Currently at night time meetings, a piece of paper with the exhibitors name is placed under the plant. This has caused some problems in the past when plants have had to be re-positioned on the show bench for various reasons.

Commencing at the June meeting we will be introducing a new label which has the plant name on the front and provision to put the exhibitors name on the reverse side of the label. This label will assist the judges in two ways, first, the plant name will be clearly displayed on the plant and secondly the exhibitors name is firmly fixed to the plant and is hidden from the judges until required for recording.

These labels were available at the last meeting and will be available at future meetings so if you don't have them yet please collect them at the next meeting and use them.

Similar labels will be used at the winter shows and if successful will be introduced for all future shows. It is hoped that the presence of the club name and logo will provide valuable publicity for the club.

---

## **CLUB BBQ LUNCH AND SOCIAL GET TOGETHER**

WHERE : Merve and Shirley Steel's  
WHEN : 12 Noon for 12:30 Sunday 13th August 2000  
WHAT : BBQ Lunch and Afternoon Tea  
COST : \$7.50

We hope everyone will put this date in your diary and make this a very successful and enjoyable afternoon.

---

## **SHOPPING BAGS**

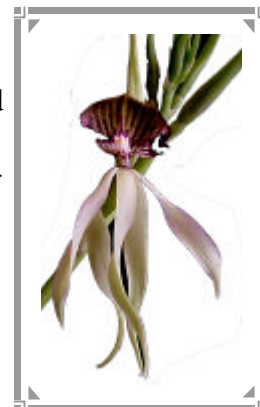

We use a large number of these at shows so this is a request for members to collect these for use on the trading table. It would be appreciated if they could be neatly folded rather than just screwed up and placed in another bag.

---

## OPEN DIVISION AUTUMN SHOW RESULTS

CLASS	PLANT	GROWER
Aust. Nat Epi Species	1 <i>Liparis reflexa</i>	D. Biebrick
Aust. Nat. Epi. Hybrid	1.. <i>Den</i> (Virginia Jupp x <i>racemosa</i> ) 2 <i>Den</i> (Edda x <i>speciosum</i> )	D. Biebrick B. Fisher
Aust. Nat. Terr. Species	1 <i>Ptst.</i> Truncata	D. Biebrick
Aust. Nat Ter. Hybrid	1 <i>Ptst.</i> X <i>furcillata</i> 2 <i>Ptst.</i> Sentinel	D. Biebrick D. Biebrick
Cymbidium Large	1 <i>Cym.</i> (Trigo Royale x Winter Alvin) 'White Diamond' 2 <i>Cym.</i> Sylvan Snow drift x Kalang x Trigo Royale	Mr.& Mrs. M. Bray Mr.& Mrs. M. Bray
Cymbidium Medium	1 <i>Cym.</i> Mini Lady 'Sweet Tina' 2 <i>Cym.</i> Arkaroola x Peter Pan 'Green Vale'	Mr. H. Gerber Mr. H. Gerber
Cymbidium Small	1 <i>Cym.</i> Gowlings Gem 'Julie' 2 <i>Cym.</i> Magic Workout	Mr. & Mrs. H. Herrmann Mrs. R. Moore
Laeliinae Std >100mm	1 <i>Lc.</i> Ovation 'Richard' 2 <i>Lc.</i> Ovations	Dr. & Mrs. R. Wilson Mr. & Mrs. R. Parish
Laeliinae Std Cluster	1 <i>C.</i> Porcia 2 <i>C.</i> Portia 'Monty'	Dr. & Mrs. R. Wilson Dr. K. Northcote
Laeliinae Non Std Cluster	1 <i>C.</i> Rose Drop 2 <i>C.</i> Rose Drop	Mr. A. De Ionno Dr. & Mrs. R. Wilson
Laeliinae Non Std Other	1 <i>Sc.</i> Seagulls Raindrops 2 <i>Lc.</i> Kindee Posie x <i>C.</i> bowringiana	Dr. & Mrs. R. Wilson Mr. D. & Mrs. J. Higgs
Other Laeliinae Hybrid	1 <i>Ctna</i> Kultana 'Jamaica Red'	Mr. & Mrs. R. Parish
Novelty Paphiopedilum	1 <i>Paph.</i> (Maudiae x Mavoing) 2 <i>Paph</i> ( <i>chamberlainianum</i> x <i>victoria marrie</i> )	Mr. & Mrs. R. Parish Mr. & Mrs R. Parish
Species Paphiopedilum	1 <i>Paph. insigne</i> var. Alba Marginata 2 <i>Paph. spicerianum</i> 'Superior'	Mr. & Mrs. R. Parish Mr. & Mrs. R. Parish
Odont./Oncidium Alliance	1 <i>Onc</i> Yurla x Hamiltons Gold x <i>crispum</i> ) 2 <i>Veil.</i> Linda Isler	Mr. & Mrs. R. Parish Mr. & Mrs. R. Parish
Zygopetalum Alliance	1 <i>Z.</i> Titanic 'Cote D Azur' 2 <i>Z.</i> Titanic 'Monarch'	Mr. H. Gerber Mr. A. De Ionno
Species	1 <i>Enc. cochleata</i> 2 <i>Stenoglottis logifolia</i>	Mr. A. De Ionno Mrs. R. Moore
Seedling all genera	1 <i>Den.</i> (Edda x <i>speciosum</i> ) 'Min' 2 <i>Den</i> (Val Peck x Hilda Poxon) 'Anzac'	Mr. B. Fisher Mr. B. Fisher
Champion Open Division	<i>Enc. cochleata</i>	Mr. A. De Ionno

*Encyclia cochleata* is an epiphyte which is found from Florida to Brazil. Known as the cockleshell orchid, the flower has the labellum or lip, which is shaped like a cockleshell, at the top and the petals and sepals hang down, giving the appearance of a squid or other sea creature. This orchid was the first epiphytic orchid to flower in Kew Gardens, London, England in 1787, and at that time it was known as *Epidendrum cochleatum*. *Encyclia cochleata* was awarded only this month—the first time it has ever been awarded in Australia—it received an HCC/AOC—the plant was the Grand Champion of our Autumn Show and the owner is Tony DeIonno. Congratulations Tony.

## FIRST DIVISION AUTUMN SHOW RESULTS

CLASS	PLANT	GROWER
Aust.. Nat. Epi. Species	1 <i>Liparis reflexa</i>	Mr. & Mrs. W.R. Clark
	2 <i>Den. monophyllum</i>	Mr. & Mrs. W.R. Clark
Aust. Nat Epi. Hybrid	1 <i>Den. Pink Blossum 'Piret'</i>	Mr. N. Woodend
Cymbidium Medium	1 <i>Cym.</i> (Willunga Eye Catcher x Rincon Clarisse)	Mr. S. Ng
	2 <i>Cym. Caitlon</i>	Mr. & Mrs. G. Shevlin
Cymbidium Small	1 <i>Cym.</i> (pumilum x Morialta Falls)	Mr. & Mrs. G. Shevlin
	2 <i>Cym. Kaulani</i>	Mr. S. Ng
Laeliinae Std. >100mm	1 ( <i>C. walkeriana</i> x <i>Bc. Donna Kimura</i> )	Mr. & Mrs. M. J. B. Steel
	2 <i>Lc. Rosies Surprise</i> ( <i>Lc. Irene Finney</i> x <i>C. walkeriana</i> )	Mr. & Mrs. M. J. B. Steel
Laeliinae Std. Cluster	1 <i>C. Portiata 'Mel'</i>	Mr. & Mrs. M. J. B. Steel
	2 <i>C. Portiata 'Mel'</i>	Mrs. L. N. Gunn

	2 <i>C. Rose Drop</i>	Mr. M. Baulderstone
Novelty Paphiopedilum	1 <i>Paph. Crossianum 'Alba'</i>	Dr. T. Bourne
Species Paphiopedilum	1 <i>Paph. spicerianum</i>	Dr. T. Bourne
Odon./Oncidium Alliance	<i>Onc. Kaulani</i>	Mr. & Mrs. M. J. B. Steel
Zygopetalum Alliance	<i>Z. Titanic 'Regal</i>	Mr. M. Baulderstone
	<i>Z. Redvale</i> ( <i>Titanic</i> x <i>Artur Elle</i> )	Mr. N. Woodend
Species	<i>Lyc. aromatica</i>	Dr. T. Bourne
	<i>L. anceps 'Irwins'</i>	Mr. G. & Mrs. M. Voskamp
Seedling all genera	<i>Z. Redvale</i> ( <i>Titanic</i> x <i>Artur Elle</i> )	Mr. N. Woodend
<b>Champion First Division</b>	<i>C. Potiata 'Mel'</i>	Mr. & Mrs. M. J. B. Steel

## SECOND DIVISION RESULTS

Congratulations to Susan Wilcox, the only exhibitor in this division with *Mtssa. Estralita*. Unfortunately there were insufficient open flowers for the plant to be granted Champion status, it was however a very nice example of the *grev.*

## **SHOW MARSHALLS' REPORT AUTUMN SHOW - COLONNADES MAY 2000**

The Show Marshals would like to report that the Autumn Show was a great success and the various aspects that are part of the show shall be dealt with individually below.

**DISPLAY :** The floral display was an unqualified success for an Autumn Show and the members should be congratulated for their efforts. The size and quality of the display was praised by the Colonnades Centre Management and the public alike. Special thanks must go to Helmut for the great job he has done with the fencing. Helmut has told the Show Marshals that he intends to improve the fencing design even further to allow for greater flexibility of the display size at different shows.

**TRADING TABLE :** No problems of any note were reported and the trading table seems to have been a success. Members are encouraged to provide culture information where possible to make selling plants easier. Thanks go to all contributors particularly those who provided plants at short notice.

**JUDGING :** The Registrar of Judges did not report any difficulties, other than some re-shuffling of plants due to the larger than expected number of exhibited plants. Judging commenced on time and went smoothly allowing the display to be completed by 1:30 ,a big improvement on previous years

**IDEAS ARISING FROM SHOW :** It has been suggested that some guidelines be drawn to assist in the smooth running of future shows. Some ideas that have been suggested cover things like. removal of plants with failing blooms from the floral display ,removal of suspect plants from the trading table, put-in and take-out procedures, repairing the A-frame sign and assisting the public who wish to photograph the display. Any members with any ideas for future shows are encouraged to see the Show Marshals or put a suggestion in the box provided at monthly meetings.

The Show Marshals would like to thank those who provided the lunch on put-in day, the judges, those who helped build the floral display and erect the fencing ,operated the trading table, fielded questions around the display and in particular all participating members. Your efforts have made the Autumn Show an event the club can be proud of.

***Cattleya aclandiae:***

The plants of this species grow in baskets or on cork or tree fern slabs near the glass. Their thick roots, well attached to the bark or basket require an exposed environment. They need plenty of light and warmth, a humid atmosphere and ample moisture during growing periods but dry conditions during resting periods. It is native in the State of Bahia, Brazil, where it grows near the ocean. Plants grow on small trees scattered over arid lands with continuous heat and light but over which humid air blows .
