

THE SOUTH COAST ORCHID CLUB OF SA INC.

Gazette

October 2022

Patron: Coralie Hills FAOC
President: Michael Willoughby

AT A GLANCE

The next General Meeting of the South Coast Orchid Club of South Australia will be held on Monday 10th October 2022 at 8.00 pm. at RSL Hall, 4 Prince George Parade, Colonel Light Gardens. Our Guest Speaker will be Graham Guest speaking on Cymbidiums.

LEARNERS' GROUP: There will be a Learners' Group Meeting at the October Meeting at 7.15pm.

JUDGING: Please have your plants benched by 7.40pm so Judging can commence at 7.50pm. If you are running late due to work commitments please phone Phil on 0438 891 612.

DAYTIME CHAPTER: The next meeting will be held on Thursday 13th October 2022 at 2.00 pm. Our Guest Speaker will be Vicky Cooper providing a practical demonstration on caring for your orchids in October.

SOUTHERN REGION: The next meeting will be held at 2.00 pm on Sunday 16th October 2022 in Carrickalinga House, 17-19 Torrens Street, Victor Harbor. We will be having a Workshop presented by Michael Willoughby consisting of short talks and demonstrations.

LUCKY NAME BADGE: Make sure you wear your Name Badge to meetings, you may win a prize

PUBLIC LIABILITY: Under Insurance Guidelines all members and Committee attending any function or meeting held by the Club must sign and print your name in an Attendance Book.

VALE - SID JAMES

It is with deep regret that the Club and especially the Southern Region Group learned of the passing of Sid James after a short illness. Sid was a stalwart of the Club displaying many beautiful orchids. He will be sorely missed.

SUBSCRIPTIONS:

Subscriptions for 2023 are shortly to be paid. Details of costs etc. will be in next month's Gazette. We do value your membership and seeing you at meetings each month.

RATES – One membership covers all groups

Family Membership	\$38.00
Single Membership	\$30.00
Junior Membership	\$22.00

<u>Rural and Interstate Membership</u>	
Family Membership	\$34.00
Single Membership	\$28.00

Account Details: BankSA Glenelg. BSB: 105-145
(Use your grower number for Reference)

Account No.: 545457040

President's Message

The 2022 Spring Show has been a great success held at the Seaford Central Shopping centre once again. The beautiful display of 93 plants was put together by the method of many hands make light work which worked a treat, it was a sight to behold as it showed our Members' plants to their best for the interested public; a fantastic effort. One comment from the public was that it was the best display they had seen for many years.

Congratulations to the growers of the Grand Champion of the Spring Show, *Paph. Chouvetii* 'van Dyke', grown by Michael Willoughby & Oui Ju. Congratulations to Anne & Phil Steer Champion First Division and Dudley & Genny Huxtable Champion Second Division and also the Genera Champions These plants were on view to an admiring public which raised many questions for the members on the trading table at the time. Results of the show are to be found in this Gazette.

This month we welcome Graham Guest from Guest Orchids who will be presenting Cymbidium Orchids. Don't miss this very interesting talk.

Now is the time to look at your *Sarcochilus* plants and start preparing them for our annual *Sarcochilus* show held in conjunction with our November Main meeting. Many plants should be showing their spikes, have a close look at the leaf axils. It looks like another good flowering year.

The committee each year steps down from their positions and now is a good time to consider if you are able to spare some of your valuable time as a member of our committee. It is very rewarding and the club cannot function without a good working committee.

We wish all the best to our members who are experiencing difficulties with their health at this time.

Successful growing & showing

Michael Willoughby

Happy Birthday

VICKY COOPER, LEE GAFTON, KEVIN TREVAN,
MALCOLM YOUNG, SUZY BRATUZ,
ANNE STEER, ADRIAN BOCKMANN,
PAULINE VLACHOS, MONICA SORRELL

Is your name in the Birthday Book ??

Native Orchids of South Australia: a Field Guide

- RRP \$60 but first 400 books available for \$55

- Comprehensive 416 orchid species
 289 maps
 over 1,740 photos showing key features

For details use the QR code to go to the NOSSA website and click on the link to the book page

- June Niejalke
- jniejalk@bigpond.net.au

**Invitation to attend the Annual General Meeting of
The Australian Orchid Foundation
to hear the guest speaker**

Phil Spence

It is impossible to summarise Phil Spence's lifetime with orchids into a few words. He is an authority on the orchids of PNG; he has been a major producer of new orchid hybrids, especially *Dendrobium*; he is an Honorary Research Associate of the Herbarium of the Royal Botanic Garden Sydney; he was the recipient of the AOF Award of Honour in 2013. In addition, he has lectured around the world and has just completed a new book on *Dendrobium* section *Latourea* which will be released shortly.

His topic: *Dendrobium* Sect. *Latourea*

Phil will speak about his *Latourea* book which is being published by the American Orchid Society and sponsored by the Australian Orchid Foundation. Phil will introduce the book to us, its contents including some species which are new to science and give us some background information on its writing and production.

**Venue: City of Whitehorse Horticultural Centre
82 Jolimont Road, Forest Hill Vic. 3131**

Date: Saturday, 22nd October 2022

Time: 2pm for AGM followed by Phil's presentation

Attendance at this meeting will also be possible by Zoom link

Afternoon tea provided Plant sales and book sales

PLANT COMMENTARY – SEPTEMBER 2022

ORCHID of FIRST DIVISION and PLANT OF THE NIGHT

There were 19 orchids benched in this Division. The plant chosen by the Judges as the Plant of First Division and the Plant of the Night was *Dendrobium* Avril's Gold 'Jilly' grown by Phil and Anne Steer.

This orchid was a large plant that had three, long, eye-catching inflorescences each of which were covered with flowers. The flowers were a bright, buttercup yellow with maroon markings. They had distinctive labellums of maroon and white. The number of flowers and their bright colouring made this orchid a winner.

Well done and congratulations to Phil and Anne Steer.

ORCHID of SECOND DIVISION

There were 18 orchids in Second Division. The winning plant of Second Division was *Paphiopedilum* Leeanum grown by Janet Adams and Gordon Ninnes. *Paphiopedilum* Leeanum is a crossing between *Paphiopedilum insigne* and *Paphiopedilum spicerianum*. The benched plant was evenly covered with lots of well formed, medium sized flowers.

The flowers were fully open and naturally displayed in a hanging pot. This orchid grows outside under shade cloth in Adelaide. The lovely *Paphiopedilum* was a healthy, well grown plant and a worthy winner of Plant of Second Division.

Well done Janet and Gordon.

ORCHID of OPEN DIVISION

The plant of Open Division was *Paph. micranthum* grown by Michael Willoughby and Oui Ju. This paphiopedilum is a species orchid that we don't see very often on the show bench in Adelaide. It had a well formed flower with an extra large pouch. The colouring was a soft pink on the pouch and a distinctive, well defined pattern of maroon and yellow on the dorsal sepal and petals.

Congratulations to Michael and Oui.

SEEDLING of THE MONTH

The Seedling of the Month was Cymbidium [Joan's Era X (Joan's Charisma X Australian Spring)] was grown by Graham Fear. It was a lovely, clean, white colour with pale pink and lemon on the labellum. It had a great shape and substance. The stem habit displayed the flowers well.

SEEDLING OF THE MONTH

Cym. [Joan's Era x (Joan's Charisma x Australian Spring)]

Grown by Graham Fear

Photo by Neil Cooper

GARARD/WESTERN TROPHY

The Cymbidium nominated for the Garard/Western Trophy was bred by Michael Willoughby and Oui Ju. This orchid was called *Cym.* [Rolf Bolin X [Westholme X (Sensation X Rampur)]] X Valley Splash. The flowers were white with a patterned overlay of maroon. The labellum had a dark, maroon tip with a yellow and white inside. The yellow marking on the labellum provided a contrast to the rest of the flower. The orchid flower markings were distinctive and attractive.

Please do not judge your orchids at home. We encourage you to bring them along to the monthly meeting if they are in flower.

Thank you to our Judges Jane Higgs, Don Higgs, and Peter Haltis for a job well done.

Vicky Cooper
Acting Registrar

DAYTIME CHAPTER

Thursday 8th September 2022

Hi everyone,

The September meeting of the Daytime Chapter welcomed Ron Parish, a Club Life Member, as our guest speaker. Ron brought along a number of his specimens and spoke on Jewel Orchids. His informative talk, and slide show, covered the selection, potting, fertilising and ongoing maintenance of these beautiful Orchids. The many questions to Ron showed the high interest by members of this species. Thank you Ron.

Ron also provided a commentary on the other plants presented by members.

Congratulations to Coral Tillmanns who won the plant of the day with her *Dendrobium* Burgundy Cream.

Thanks to Patti for organising the the raffles and Alan for operating the trading table.

The meeting ended with afternoon tea and discussions.

Next Meeting :
Guest Speaker: **Vicky Cooper**

A practical demonstration on caring for your orchids and all things needed to be done in October.

Thursday 13th October – 2pm,
Lou Kesting Hall, South Brighton.

*Keith and Val
Bleechmore*

SOUTHERN REGION MEETING Sunday 18th September 2022

Convenor, Chris Heysen, opened the meeting at 2.10 pm welcoming the 23 members and visitors present. Welcome also to guest speaker for today – Kevin Western.

Apologies: Phil Steer, Christine Robertson, Bev Gay, Anne Bourne, Julia Mumford, Pam McDonald and Peter and Julie Davidge. Christine is recovering but it will still take some time. I spoke to her this morning, and she's obviously frustrated at not being able to drive.

Vale to Sid James. As I'm sure most of you know by now long-time member and stalwart of the club Sid James passed away last week after a short illness. Anne has written to his family to pass on our sincere condolences. For those who would like to attend his funeral it will be held in the Gospel Centre on George Main Road (opposite VH High School) this coming Wednesday (21/09/22) at 11:00am. Knowing the high regard in which Sid was held in Victor Harbor I'm sure there will be a large crowd. The service will be also available for direct viewing on livestream by searching Sid Andrew James on You Tube.

Thank you to John Gay for his always informative presentation to the Learners Group.

Guest Speaker: Our Guest Speaker, Kevin Western, gave a very interesting talk about orchid propagation with many detailed slides showing each stage of the process for both seed and mericlone reproduction. The attention to detail required to ensure strict hygiene is maintained at every stage was fascinating and clearly showed why this is a very skilled operation that very few people can accomplish successfully. Many thanks Kevin.

Birthday Prize: Eileen Pinnock.

Lucky Name Badge: Marg Yelland.

Door Prize – Shirley Greig.

Announcements.

Our show last month was very successful. The display was great and created a lot of interest from the public. Congratulations to Lyn Heysen on winning the Grand Champion and to Peter and Julie Davidge for their Reserve Champion plant.

Sales on the Trading table were brisk, and we had to call for extra plants after the first day. At close of business on Saturday virtually everything had gone. Well done and a huge thank you to all who helped across the 3 days. It was a huge effort but well worth it. Anne Steer presented prize money, Certificates and Trophies to winners from the Show.

The plant raffle was held as usual, and Chris thanked all the donors of raffle prizes.

Judging: Jane and Don Higgs carried out the judging assisted by John Gay.

Judges Commentary: Jane Higgs.

Next meeting – Sunday 16th October 2022. This will be a workshop meeting with demonstrations by a number of members of the Club – including today's guest speaker, Kevin Western - who will demonstrate deflasking of orchid seedlings. I understand that our President may also be here.

The meeting closed at 3:00pm

Chris Heysen

SOUTHERN REGION PLANT COMMENTARY

Plant of the Day Orchid of Second Division

The Judges chose *Den. Gracillimum* 'Dashwood' as the plant of Second Division and Plant of the Day. This was grown by Dudley & Genny Huxtable and was a well grown plant with many lovely inflorescences carrying multiple flowers.

The flowers were cream with minute reddish brown markings and a white frilled labellum.

Well done Dudley & Genny.

POPULAR VOTE

The Popular Vote was shared by two plants. *Den. Gracillimum* 'Dashwood' grown by Dudley & Genny Huxtable and *Den. Ellen* 'Lorna' grown by Bob & Meaghan Clayton.

Orchid of First Division

The plant selected by the Judges was grown by Chris & Lyn Heysen and was *Phal. Unknown*. This was a very well grown plant with beautiful white flowers with minute mauve spots and a deep purple labellum.

Congratulations Chris and Lyn.

Oncidiinae - Hybrid > 60mm			
355	Ons. Midnight Miracles	Genny & Dudley Huxtable (279)	3

Orchid Culture Notes for October

With the shows almost over we return back to our orchid enclosures and commence one of the most important periods in the orchid calendar. It is called maintenance and whether we like it or not, it is an important factor in the upkeep of our collections. Repotting, potting on, dividing and feeding marks what I call the busiest time of the year.

After flowering many of our plants commence a new season growth. This growth can be retarded somewhat if the flowers are left on too long, especially with orchids that hold their flowers for a long time. So the decision is do we cut them off after displays, etc.? This is a personal choice. Some will say in nature they don't get cut off. True. But how many grow here and how many are so far removed from their original parentage that they don't know what they are anymore. My preference is that short lived flowers such as the natives stay on until they drop but those that stay on longer such as the Cymbidiums get about four weeks before I cut them and bring them inside. Other even longer lasting orchids like the Paphiopedilums seem to do okay regardless of how long they stay in flower. Only experience with your orchid in your environment will answer this question correctly.

Other factors to take into account are the size of your plants. A large and well grown plant can support large or multiple racemes but what of a small first flowering seedling or a plant stressed from the previous year division, flowering in a last effort to reproduce and survive. It is best to remove these flower spikes early rather than subject the plant to too much added stress. Some Oncidium seedlings come to mind here, literally flowering themselves to death as a first flowering plant. What about those plants stressed after being in a shopping centre or the show for days on end. I find it best to give these plants a rest and remove the inflorescences. Again I stress, this is my personal choice and it is up to the individual to do what they wish with their plants.

Native Dendrobiums should have flowers cut once they start to droop and lose substance. Spent flowers that drop onto leaves and new growths, etc. soon go mouldy and attract fungal problems. One little insect bite or a damaged leaf will provide the perfect entry point for fungus and in the warmth and moisture of October this spreads rapidly. Now is also a good time to pot on and divide Native Dendrobiums as they commence new growth and re-establish quickly. Look for the commencement of new root growth with the new canes. Don't over pot natives and allow enough for two years growth. This is a good rule of thumb.

Always inspect the roots to see how your culture has been. The pots should have roots growing round and round the inside edge of the pot. They should be white and firm with many growing tips. The centre of the plant has fewer roots and most of these will be previous roots, brown and dead looking. If your roots are sparse all through the mix or rotted then you have a cultural problem. There could be many reasons for this. Too much water, the mix has broken down and become acidic, over fertilising or feeding when the plant is dormant or the plant being cold and wet when it should be cold and dry. This applies especially to the hot/colds. For the newer growers a hot/cold Dendrobium is a hybrid where a cool grower such as *Den. speciosum* is crossed with a warmer grower such as *Den. bigibbum*. It gives you a plant that often flowers earlier or later than most natives. The flowers last longer are usually larger and more colourful than the cooler growers. These are rapidly gaining in popularity. Treat them the same as the normal cool growers during the growing season but keep a little drier in winter and provide them with more light.

Zygopetalums should just about be finished flowering now and large plants can be split. As with most orchids it pays to keep your divisions to a good size of three or four growths as a minimum to ensure flowering next season. Keep an eye out for the Spring looper caterpillars under the leaves from now. They are fond of the soft new leaves of your Zygoes and one or two loopers will make a mess of new growths overnight. Spray with Mancozeb every two months to keep fungal problems to a minimum. Keep water and fertiliser out of the new growths. With fungal problems rife in October your Zygopetalum will be the first to lose growths through rot. At worst it will keep 2 or 3 leaves and will be severely set back, so much so, it may not even produce a worthwhile back bulb, let alone anything strong enough to support a strong growth next year with a flower spike.

Native terrestrials start to look a little sick from now as they begin to yellow and enter summer dormancy. Reduce the watering as they enter dormancy.

New growths on the Cattleyas and Oncidiums start to move now and many will show new roots starting to appear. This tells you they are becoming more receptive to feeding and watering. Aquasol, Thrive and any feed with a high nitrogen component will suffice at this time. With the new roots forming tells you it is also a good time to divide and repot these two genera. The new roots continue to grow to support the division, often with very little set back. Do this at the wrong time and watch your plant wither and struggle.

If you decide to break up an Oncidium or Cattleya/Laeliinae do this before the roots get too long and are easily broken. Secondly if they grow long they become accustomed to an aerial existence and will rot off when placed into the damp confines of a potting mix. Make sure your division is securely positioned in the pot until it establishes.

Sarcochilus will rapidly be showing their flower spikes now as well and it won't be long before we see plenty of flowers. These are one orchid that likes a very weak fertiliser as the roots are highly sensitive. If you see them lose their green tips shortly after a feed then that's the sign that says oops...too strong or I have some micro slugs in the mix. Don't worry, they'll find your flowers sooner or later if you don't bait them now! Keep them moist also as they do not have any pseudobulbs to fall back upon in times of dryness. Rainwater is best if you can provide it and look at increasing the shade levels as well as the sun's intensity rapidly increases this month.

For those that fancy growing orchids on mounts, spring is a good time to start them off as they readily establish when new roots become evident. A good lesson here is to observe the roots. If they touch the mount and die or brown off then they are saying that host is unsuitable. Orchids are wonderful plants. They tell you when something is not to their liking. Learn to observe these signs and you are well on your way to mastering them. Overlook them and your plant will struggle and even die.

Other chores this month involve moving your plants around as the seasons change. I love moving my plants around as I strive to find the sweet spots in my shade house. I provide high light for those that like it, cool shady spots for those that hate the heat and the harsh Adelaide sun. I observe the changing microclimates and most of all make sure I don't grow the orchid that didn't flower this year in the same spot with the same treatment. Plants hung high should be lowered a little as the sun's intensity increases dramatically this month and temperatures rise. Remember these exposed plants will need water more often. With November nearly on our doorstep we need little reminding that a hot and stressful Summer is just around the corner.

Steve Howard

ORCHID CLUBS IN SOUTH AUSTRALIA **General Meeting Times**

THE SOUTH COAST ORCHID CLUB OF SOUTH AUSTRALIA: Whilst COVID restrictions are in place the Club meets on the Second Monday of the month at RSL Hall, 4 Prince George Parade, Colonel Light Gardens. at 8.00p.m.

THE DAYTIME CHAPTER: meets at the Lou Kesting Hall, off Broadway, South Brighton on the second Thursday of the month at 2.00p.m.

THE SOUTHERN REGION: meets at Carrickalinga House, 17-19 Torrens Street, Victor Harbor at 2.00p.m. on the 3rd Sunday of the month.

THE ORCHID CLUB OF SOUTH AUSTRALIA: meets at 8pm in The Enfield Community Centre, 540 Regency Road, Enfield on the 1st Thursday of the month.

Daytime Group: meets from 2.00p.m. to 4.00p.m. in the Enfield Community Centre, 540 Regency Road, Enfield on the 2nd Friday of the month.

THE MURRAY BRIDGE AND DISTRICT ORCHID CLUB: meets at 1.45pm in the Seventh Day Adventist Hall, corner Myall Avenue and Standen Street, Murray Bridge on the 4th Sunday of the month.

NORTHERN AND EASTERN DISTRICTS ORCHID SOCIETY: meets in St. Philip's Church Hall, Galway Avenue, Broadview from 7.30p.m. on the 3rd Thursday of the month.

THE SOUTH AUSTRALIAN ORCHIDACEOUS SOCIETY: Meets at the Plympton Community Centre, 34 Long Street, Plympton from 7.30p.m. on the 3rd Wednesday of the month.

THE NATIVE ORCHID SOCIETY OF SOUTH AUSTRALIA: meets at 7.30p.m. at St. Matthew's Church Hall, Bridge Street, Kensington on the 4th Tuesday of the month.

THE CYMBIDIUM CLUB OF SOUTH AUSTRALIA: Meets at 7.30p.m. at Burnside Community Centre, 401 Greenhill Road, Tasmore on the 4th Wednesday of the month.
