**Judy and Rod McRedmonds**, 87 Kyema Ave, Cumberland Park on Saturday 17th June at 1pm. Come along and join in the fun.

**George Abel** on 26 May 1pm 20 Sinclair Court, Carew' Old Reynella

### **JUDGING ROSTER FOR JUNE MEETING**

Judging Roster

Registrar - I Attenborough

Open Division-      G Zerbe      N Oliver  
Pencillor -            M Tiggerman

1ST Division -        R Fishlock      B Bower  
Pencillor -            J Robinson

2nd Division -        J Gay            H Fishlock  
Pencillor -            M Cunningham

Judges to arrive at 7.15 to place plants on benches

### **MONTHLY ROSTER**

Computer - B Gay

Hostesses - Irene Parish and Vanessa Talbot

## **PRESIDENT'S REPORT**

Congratulations to all the winners at the May Show. Every member is to be congratulated on all the support given to make our Autumn Show so very successful. Thank you to all Committee Members for a job well done.

Hallett Cove once again was a great build up to our Autumn Show at Colonnades. We have put our names down to have a stand in the new Shopping Centre when it is built at Hallett Cove. It would be great to have a display and trading table in the new area.

S.A.R.O.C. Fair is always a lot of fun to put in a display (please don't let it rain on Friday 9th, between 6pm and 6.30pm - this is our put-in-time. Last year, right at this time we were all sopping-wet). The girls have the display well in hand for both the Species Group and Main Display.

June, a display at Centro Cowandilla, to promote our Winter show at Kurralta Park. For this we will need Flowering plants and volunteers to man the Stand.

Committee have been planning the Winter Show. This is a new site for us and we know it will do very well - a very busy shopping area. Let's make this a great Display and selling area.

Remember the plant you leave at home could be Grand Champion. Bring it along and let the Judges decide.

Members, from what I hear the flowering season this year is going to be one of the best years ever. Listed below are a few pointers to help you, stakes straight in the pots, tie up while buds are there as

once flowers are open you could damage lips etc. Remove husks from bulbs and spikes. A few snail pellets shade, white and greens for clarity of colour, leave reds and dark pink in the shade house as the cold enhances the colours and of course this information is for Cyms.

Transporting Cyms to shows, clean leaves with a little milk and water mixed, make sure pot is clean, with no white residue around drain holes, bunch leaves together with twisties or strips of panty-hose, this reduces damage to flowers. Remember to remove before bringing plant into meeting hall. Please remember green - open, buff -first and yellow - second.

With name of plant and Show No on bottom right hand corner. Your label Show No is on your address label of the Gazette.

Please bring along all your plants for judging on the Shows. The one you leave at home could be a Champion.

Make 2006 your year. Good Growing. Kindest Regards, Geoff

## **PLEASE PUT THESE DATES IN YOUR DIARY.**

Centro Hilton Display Only Thursday 22nd June to Sunday 25th June.

Judging at Hamilton School, Marion Road, Marion, Saturday 1st July. Put in 1.00pm Judging 1.30pm

Winter Show K Mart ANZAC Highway, Kurralta Park. Put in 4pm, Sunday 2nd July to Sunday 9th July.

Victor Harbor Show Corner Pine Ave & Victor Harbor, Thursday 17th August to 20th August.

Spring Show Centro Arndale Kilkenny in front of Harris Scarfe. Show dates - Put in 17th Sept. Take

## **Welcome & Congratulations to NEW MEMBERS**

**Thelma Reglar and Peter & Gwen Barrett**

### **CYMBIBIUM APPRECIATION**

Thank you to Moss, Graham, and Kevin for making this such a successful group, by passing on your knowledge.

Last month Graham brought his 'EC meter' machine and tested the fertilizer salt strengths that members are using on their plants. Most members were surprised with the results shown. Some members were using too much fertilizer in their mix. Next months subject is - Bring along your plants and let's appreciate them.

### **SOUTHERN REGIONAL GROUP**

Thank you to Iain Kilpatrick for his very interesting talk.

Trevor Garard will once again be your Guest Speaker. Trevor loves his natives and terrestrials and is always very keen to pass on his knowledge. Graham Zerbe has offered to be your Guest Speaker in August.

Graham and his wife, Sue are going to the Orchid Conference in Port MacQuarie in July, and Graham is going to tape the Conference and tell you all about his visit and the orchids at Port MacQuarie.

The board members at Carrickalinga House have offered us space on the Advertising Board on the front of the building, and of course Committee has accepted. This is a great advertising location. The Library now has obtained a book called "WHAT ORCHID IS THAT". This is a great reference book and it will stay in your Library at Victor Harbor so you can refer to it when necessary.

Please don't forget the June Plant House visits and S.A.R.O.C. Fair. There will be plants for sale so build up your collections and S.A.R.O.C. Fair are sure to have plants you do not see on the local market. A lot of plants come from Interstate.

### **DAYTIME GROUP**

Hi Everyone,

Another great afternoon was had by all who attended the Daytime Group, it's really great to see a few of our Night-time members coming along as well. As you all know you're all welcome at any of our Meetings, as your Membership fees covers all groups.

Our Guest Speaker today was Mrs. Heather Fishlock. It's always a lively group when Heather's around, she really seems to enjoy what she's doing. It was a great Video taken by Heather on their trip to England, all the gardens looked beautifully kept and tidy. I thought the flowering shrubs and trees were lovely and the orchids were all magnificent of course. I myself think all Orchids are beautiful, perhaps I'm a bit biased, and it was a nice surprise to see all the other Members from the other Clubs who were involved on the trip to take in the Orchid Conference. Thank you Heather for sharing this with us. I'm sure all the other Members enjoyed seeing it all. What with Heather this month and Brian Lyttle last month and all the other great guest speakers we are moving along nicely.

Our plant table was down a bit this month, but as it's our Autumn Show at Colonnades, they were probably all down there. Thanks to those who bought in their plants for us to enjoy.

A big cheerio to all on the sick list. I hope you're all feeling a lot better soon, our weather has been so changeable lately, it's not hard to pick up a cough or a cold, but aren't the nights great for sleeping.

Lucy got the popular vote for one of her special cattleyas Blc. Adelaide Silver 'Aurora'

Bye, Dorothy

# Autumn Show Results List

## Grand Champion

83 Z. mackayi John Robinson (1448)

## Champion Open Division

93 Slc. Sierra Skies 'Leone' Bev & John Gay (65)

## Champion Cymbidium < 60mm

75 Cym. Mini Mint 'Beverley' Bev & John Gay (65)

## Champion Paphiopedilum

80 Paph. (Venus Hold x fairirieanum) Tony Bourne (1415)

## Champion Genera not otherwise listed

88 Stenoglottis longifolia Bev & John Gay (65)

## Champion Australian Native

74 Liparis reflexa Bev & John Gay (65)

## Les Nesbit Trophy Award (Species)

84 Liparis reflexa Bev & John Gay (65)

## H. & B. Viney Trophy

85 C. Carol Bernice 'Rob' Jim Shaughnessy (288)

## Champion First Division

81 Z. mackayi John Robinson (1448)

## Champion Laeliinae

77 C. Carol Bernice 'Rob' Jim Shaughnessy (288)

## Champion Zygopetalum

89 Z. mackayi John Robinson (1448)

## Champion Species

90 Z. mackayi John Robinson (1448)

## Champion Seedling

91 Zga. Adelaide Meadows x Zpp. Elfin Jade Murray Baulderstone (25)

## Champion Specimen

92 Z. mackayi John Robinson (1448)

## Champion Oncidiinae

79 Onc. Sharry Baby 'Sweet Fragrance' Suzanne Saunders (1481)

## Champion Second Division

82 Onc. pulvinatum Wendy Lodge (406)

## Reg Shooter Trophy Award (Hybrids)

78 Den. Hilda Poxon John Dunn (600)

## Champion Cymbidium 60 – 90mm

Cym. Choc 'Black lip' Rod & Judy McRedmond (1141)

## Open Division

## BARK RAFFLE

Thank you to Jim Shaughnessy who has donated two bags of Bark to be raffled. Tickets available at all meetings at the Treasurers Desk.  
Raffle Drawn at June Meeting.

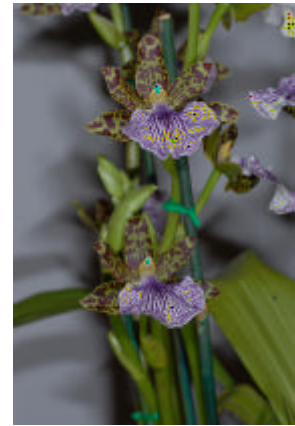

## PAINTING AUCTION

Painting donated by Syd Monkhouse. A great interest is being shown in this painting. This is a painting of Species Orchids - Telipogon andinum and Fernandezia subbiflora. Artist T Gourley. We will be auctioning this painting at our July Meeting.

## Autumn Show, May 2006

### Grand Champion and Champion 1st Division

*Zygopetalum mackayi* grown by John Robinson. A very well grown plant carrying large flowers for the species. There were six inflorescences with open flowers and another six still in bud. The broad sepals and petals were spotted and striped in deep red-brown while the lightly ruffled white labellum was heavily striped in deep purple.

### Champion Open Division

Slc. Sierra Skies 'Leone' grown by Bev and John Gay. A moderate size well grown plant with a single inflorescence carrying a single well shaped and filled in flower. The spaces between the sepals were filled by the broad petals and the flower was balanced by the broad round labellum. All segments were a vibrant deep purplish-red.

### Champion 2nd Division

*Onc. pulvinatum* grown by Wendy Lodge. The well grown plant carried a single much branched inflorescence of many yellow flowers. All segments were of the same yellow background colour, the sepals and petals being barred in light brown on the half nearest the flower centre. The labellum, forming the skirt of this genus commonly called 'dancing lady orchids' was spotted in the same light brown colour.

### A few other plants benched by members on the night:

#### Open Division:

*Enc. cochleata* grown by Peter and Geraldine Flavel. A well grown plant carrying three inflorescences. The flowers of this species have a different orientation to those of the majority of orchids. The greenish yellow narrow pointed petals and sepals hang down from the centre of the flower while the round labellum is held up almost vertically. The side lobes of the labellum were a solid deep reddish brown, striped towards the centre on a pale green base while the centre lobe was striped a lighter brown on a muted olive green base.

*Epi. elongatum* grown by Geoff and Lucy Spear. A very nice specimen plant with 17 inflorescences carrying heads of small lavender pink typical "crucifix orchid" flowers.

*Stenoglottis longifolia* grown by Malcolm Guy. A terrestrial genus from South Africa, a good display was produced from a potful of tuber-like fleshy roots. There were 13 inflorescences carrying open flowers (this is a progressive flowering plant) and three inflorescences still in bud. One of the features of these attractive tiny flowers is the way in which the centre lobe of the labellum is divided into 5 fine strips giving them the appearance of being bearded.

#### 1st Division:

C. Carol Bernice 'Rob' grown by Jim Shaughnessy. Strongly grown plant with a single inflorescence of 18 well displayed flowers arranged evenly around the stem. Sepals and petals were light

brownish pink with pale green shading along the mid-line, deep maroon spotting towards the outer ends. The white labellum had a striking purple mid-lobe complimenting the rest of the flower. This plant was awarded an AOC quality award, an HCC, on the night.

Cym. *dayanum* grown by Norm Woodend. The plant carried some fifteen inflorescences with open flowers and two in bud. The petals of the small flowers of this species protrude forward towards the deep maroon column. The sepals and petals were a pinkish cream with a deep maroon central stripe of very fine spots. The labellum was dark maroon with a cream centre striped towards its base.

Den. Anne's Rainbow Surprise grown by David and Kay Cammack. The large plant carried five inflorescences with open flowers and another five in bud. Sepals and petals were light yellow with a light red blush towards the tips. The yellow labellum had a reddish pink central stripe flanked by fine red spotting on its mid-lobe.

2nd Division:

Epi. Rhody Kim grown by John Dunn. A well grown plant carrying five open flowers and three buds. The sepals and petals were a solid deep pinkish purple, the side lobes of the labellum were the same colour while the centre lobe was darker purple with a very deep blotch towards its creamish base.

Milt. Christine Carpenter Rumsfelt grown by Wendy Lodge. The narrow pointed sepals and slightly broader pointed petals were all a uniform deep purple in colour. The wide and rounded labellum with a slightly undulating edge was a slightly lighter pinkish purple with darker short purple stripes and raised narrow sections at its base. The column was dark purple.

Cym. Choc 'Black Lip' grown by Rod and Judy McRedmond. A well grown plant in the 60 to 90mm class with sepals and petals which are relatively broad for Cymbidiums flowering at this time of the year. The sepals and petals had very fine deep brown spotting on a cream base and the labellum was solid deep red edged white at its periphery and broke into stripes on a cream base towards the centre.

Ian Attenborough

## SPECIES GROUP

20 members attended the May species meeting and were treated to a nice array of species across a wide variety of genera.

Australian species were well represented. *Dockrillia wassellii* mounted on a large piece of natural cork bark was nicely flowered with several racemes of small white flowers complementing the terete leaves. This is a fairly easy orchid to grow if given a minimum temperature of 10c with plenty of air movement, ample water during the warmer months & kept fairly dry during the winter. To induce flowering reduce the temperature when the leaves on the new growths have made up.

Requiring similar treatment is another Aussie species *Dock rigida* but does require a little more warmth in our winter, a minimum of 12c at least. A small plant with thick cylindrical leaves giving rise to the specific name of *rigida*. Flowers are small, crowded on short racemes, colours range from white to cream with a distinctive red labellum.

Also from Northern Australia was a delightful little species *Dendrobium schneiderae* small pseudobulbs the size of a marble topped by one or two leaves the short 8cm racemes arising from between these leaves carrying up to 20 eight mm fragrant flowers. This species also prefers slab culture making sure it is securely tied to the mount. Treatment the same as the previous two but will grow quite happily in temperatures down to 6c if kept on the dry side.

Other species benched were *Den bigibbum* another Australian species. *Masdevallia barleana* from Peru, *Pleurothallis tuerck-*

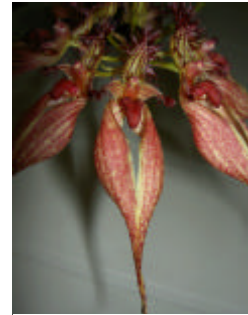

*heimii* & *Pleuro allenii* from Central America, *Encyclia elongata* from Brazil, *Catleya bowringiana* from Guatemala *Bulbophyllum rothschildianum* from India, *Oncidium incurvum* from Mexico and *Paphiopedilum charlesworthii* from India. After commenting on each plant a lively discussion on various potting media and fertiliser rounded off another entertaining and instructive species meeting.

Reg Shooter

*Paphiopedilum charlesworthii*

*Bulbophyllum rothschildianum*

### OUR SPECIAL GUEST SPEAKER

Bill and Jan Miles from Victoria, will be our Guest Speakers at the June Species Group Night 6 June (changed for the occasion) and Main Meeting night 7 June. They will give a presentation on 'How they grow Species' and on 'Alternatives to bark for new pots and Cymbidiums' for our main group. Please to come to either both meetings, and bring a friend.

Bill will have plants for sale, be prepared to buy. **It is a special opportunity to purchase rare and desirable plants not available in SA without having to pay delivery costs.**

**Gawler and Districts Orchid Club**—8 June Shade Houses and Glass Houses .

Bill and Jan are well respected speakers on Species and other Genera and well

### Stop Press

Noel Oliver has just informed us that he has received a great shipment of Natives  
All well established on mounts.

*Sarc. Cecilliae* 5 of

*Sarc. Olivaceous* 5 of

*Sarc. Falcatus* 3 of

*Dock. Striolata* 'Yowaka River ' x Self 4 of

(a vigorous form from NSW rear Eden—Red striped honey coloured blooms in spring)

*Dock. Bowmannii* 4 of

(Lemon scented blooms in Autumn & Spring)

*Dock. Pugioniformis* 5 of

All priced \$12.00

Noel supports our Club strongly please consider these plants when buying

### Video & DVD

Virus in Orchids by Richard Fishlock available from the Club Videos  
Cost \$19.95 each and DVD's cost \$24.95. The Club receives a substantial amount of each sale. They are very worthwhile and are recommended to anyone with a serious interest in orchids.

Note—this video has now been sold to Qld. Vic. WA. & Vic. And several local Clubs

## Current Sponsors for our Club

We wish to thank the following persons who have supported us and our shows with donations etc. Members are requested to keep these people in mind when purchasing orchids and supplies
