

The South Coast Orchid Club of SA Inc.  
**Gazette**

**September  
2013**

**PRESIDENT: Geoff Spear**

**PATRON: Sydney Monkhouse**

**AT A GLANCE**

The next meeting of the South Coast Orchid Club will be held at 8pm on Wednesday 4<sup>th</sup> September 2013 at St. Bernadette's Church Hall corner of Walsh Avenue and South Road, St. Marys. Our guest speaker will be Alan Davies speaking on 'The Olympic Dam'.

**TRAINEE JUDGES:** Would Vicki Cooper, Rowan Crowhurst, Peter Haltis, Judy McRedmond and Trevor Stutley please make themselves available 10 minutes prior to main meeting to discuss show arrangements with registrar Graham Zerbe.

**BEGINNERS' GROUP MAIN MEETING**

Convenor: Pauline Hockey. Bring along any problem plants and questions.

**DAYTIME CHAPTER**

The next meeting will be held at Lou Kesting Hall, off Broadway, South Brighton on Thursday 12<sup>th</sup> September 2013 at 2pm. Guest speaker will be Geoff Spear discussing the process of breeding orchids and the final result.

**SOUTHERN REGION GROUP**

The next meeting will be held at 1.30pm on Sunday 15<sup>th</sup> September 2013 in Carrickalinga House, 17-19 Torrens Street, Victor Harbor. The guest speaker will be Noel Oliver on Australian Natives.

**SOUTH COAST ORCHID CLUB SPRING SHOW 22<sup>nd</sup> to 28<sup>th</sup> SEPTEMBER:**

**Judging:** Saturday 21<sup>st</sup> September at Hamilton School, 815 Marion Road, Mitchell Park. Gates open at 11.00am any members who are able to help set up the hall please contact Lucy.

**Put in time:** 12 noon. Judging 1.00pm. sharp.

**Show Venue:** Centro Arndale, 470 Torrens Road, Kilkenny.

Members please take your display plants to Arndale immediately after judging to build the display. Prior arrangements must be made with Geoff Spear if you need him to transport your Show Plants. We must be out of the Centre by 6.30pm. Badges must be worn.

**Trading Table Plants:** Trading Table Set-up at 4.30pm Saturday 21<sup>st</sup> September.

Members may bring plants from 4.30pm until 5.15pm and shopping hours during the week. Remember Sunday 22<sup>nd</sup> September will be the best selling day from 12 noon. Show times are the Club's bread and butter. Please bring along any plants you have for sale.

**Prize Money:** Grand Champion will receive \$15.00 and other Champions \$5.00.

REMINDER: To show your plants at the Spring Show you must be a financial member and have owned your plant for at least 6 months.

Sunday 1<sup>st</sup> September 10a.m. to 3.00pm

#### **Thursday 29<sup>th</sup> August Timetable:**

8.30am.	Geoff, Lucy, Dorothy arrive. Helpers please.
9.00am.	Set up judging.
9.30am	Set up for trading table.
9.45 to 10.15am.	Put in plants for judging.
10.30am.	Judging.
12 Noon	Show opens.

### **Vale**

It is with deep regret that we announce the passing of Life Member Tony Deionno.

Tony passed away on Thursday 15th of August 2013 after a long illness.

Tony joined the South Coast Orchid Club in the early 70's. and was a very active member in the early days of the Club, being helpful whenever he could and proud to show his wonderful orchids.

At one stage he had 2000 cymbidiums.

Tony will be sadly missed.

The South Coast Orchid Club extends condolences to Toshie, Rita, Peter and their families .

## **PRESIDENT'S MESSAGE**

May I congratulate you all on your best Winter Show to date. The Winter Show Grand Champions were Geraldine and Peter Flavel with their Mclna. Pagan Lovesong 'Ruby Charles'.

Congratulations to all concerned, Judges, Committee and all the members who put in such high quality plants. I must admit I was surprised to see so many plants when we had such a poor flowering season. You all excelled yourselves.

September is our Spring Show at Arndale. This is always a difficult time to find members to help on the Trading Table. Committee members are all getting older and 4 of us put in so much time down there. Last year it was exhausting, so please try to help. You learn a lot and it can be a lot of fun. Please see Dorothy and put your name in the Roster Book.

Speakers for next year. Lucy still has 2 spots to fill. Have a talk with her about who you would like to hear speak at the meetings.

Have you ever thought about being a Committee Member? As you know, at the end of the year all the Committee Members stand down and nominations are taken for the positions required. Please think about this and see Lucy. Have a chat about how rewarding this can be. Remember, new blood, new ideas.

Well, till next month. I wish you good growing and showing.

Geoff.

## **Daytime Chapter**

Hi Everyone,

Our guest speaker today was Mr. Trevor Jacobs with a great Power Point presentation which was very nicely put together showing us some of the unusual flowers, the growth habits and the ways these flowers are pollinated by many different types of insects. Each plant has its own method of doing this very cleverly by tricking the insect into thinking it is with a female insect. The plants are able to imitate the female scent. Very sneaky. Another flower had a small hammer type trigger that comes down on the insect laden with pollen which is then transferred to other flowers as it does what insects do.

Trevor then showed us a book in publication of a Blue Phalaenopsis that had been produced, also a few other genera as well. The Australian Dendrobium looked very pretty. So now we can colour-code our collections or mix and match. Thanks Trevor for a great presentation and for all the information you shared with us.

Trevor kindly did the plant commentary today, doing an excellent job. We had a lovely display table of plants with many different genera on show. George and Patty Abel's Zygo Carew's Fields 'Charisma' was voted best on the day. A lovely plant with many blooms, very clean and well presented. Congratulations to you both.

Our Winter Show was another great success, I think the best Winter Show ever just by the sheer number of plants in the display and on the trading table, Congratulations to you all.

The meeting was closed, a hot cuppa next on the agenda. Thanking all in attendance.

Bye Dorothy,  
8277-1793.

## SOUTHERN REGION GROUP MEETING SUNDAY 18<sup>th</sup> AUGUST

**Beginners' class:** Graham Zerbe discussed how to present your plants for judging.

The President opened the meeting at 2.00pm and welcomed guests and members. The attendance was extremely good with 31 people braving the cold to attend.

It was very pleasing to see so many plants on display at the meeting considering the way that the weather has been lately.

Geoff thanked Brian Lyttle for his interesting talk on phalaenopsis orchids.

**JUDGING:** John Gay, Graham Zerbe and Noel Oliver.

**PLANT OF THE DAY:** *Ptst.* Curta benched by Reg and Elsie Clifford.

**POPULAR VOTE:** *Den.* Warrugal 'Magenta' benched by Eileen Pinnock.

Reg Clifford with his Plant of the Day  
*Ptst.* Curta

Popular vote plant *Den.* Warrugal 'Magenta'  
benched by Eileen Pinnock

Brian Lyttle receives his guest speaker  
gift from President Geoff

## August Plant Commentary

**Flower of First Division and Flower of the Night:** *Paph. Chouvetii* benched by Judy and Rod McRedmond. A very well grown plant with at least seven well grown leads three of which were carrying flowers, one with a single flower and the other two with two flowers on the stem, making five flowers in all. The flowers were 110mm. tall and between 100mm. and 110mm. across. The plant had well cared for foliage and very good flowers.

**Flower of Open Division:** *Onc. Romantic Fantasy* benched by Geoff and Lucy Spear. A relatively small plant, filling the pot with at least fourteen stems with numerous flowers on each. The flowers were approximately 20mm. tall and 15mm. across. Sepals and petals were very light pale pink and the labellum was light cream with yellow on the column in the centre. A very showy plant with many flowers.

## **August Plant Commentary (cont.)**

**Flower of Second Division:** *Ludisa* discolour benched by Paul and Donya Hayes. A well grown tall plant in a relatively small pot with five stems with five small white flowers, four of which were almost all open and the other one with the flowers starting to open. The flowers were small being 15mm. tall and across. The labellum was white and the twisted column was yellow.

## Winter Show Plant Commentary

### Grand Champion, Champion Open Division and Champion Oncidiinae:

*Mclna*. Pagan Love Song 'Ruby Charles' benched by Peter and Geraldine Flavel. A mature plant in a medium size pot with a single long upright spike carrying thirteen flowers. The flowers averaged 120mm. tall and 110mm. across the lower sepals. Sepals and petals were light yellow with a very light touch of very pale green. The tips of the sepals and petals were plain yellow but the inner half to two thirds had blotches of very dark maroon and the labellum was a highlight of the flower.

## Winter Show Plant Commentary (cont.)

**Champion of First Division:** *Cym.* Kimberley Meadows 'Green Beret' benched by Oui Ju and Michael Willoughby. The plant carried two spikes, one with 19 open flowers and one still to open. The other had 18 open flowers and one bud. The flowers were 90mm. tall and 100mm. across the widest point. The sepals and petals were clean mid-green all over, the only marking being a darker deep-brown stripe on the mid-line of the back of both sepals and petals. The labellum had a deep maroon mid-line with a fine cream edge and some deep maroon markings, a highlight of the flower.

**Champion of Second Division:** *Brassia* gieroudiana benched by Paul and Donja Hayes. A well grown plant on a wooden slab. The plant had 5 bulbs or swollen stems with leaves. One of these produced an inflorescence carrying 7 flowers. All flowers were open and approximately 20cm. tall and up to 10cm. wide. Sepals and petals were yellow/green with deep maroon edging and deep red/brown blotches towards the centre of the flower.

## Orchid Culture Notes for September

Spring has finally arrived. I thought winter would never end this year. It is a pity nature does not know that spring starts off on Sept 1 because it is often well into October before we get any reasonable warmth. Spring is a fickle time of year and as the season wears on the extremes of weather become more pronounced. The increasing day length wakes up many plants from a period of dormancy. This does not mean we go from weekly watering and minimal feeding to daily watering and heavy feeding. In nature the wet season is a gradual build up and so should our watering and feeding programme be. Many plants send out new growths first but the new roots may be sometime off. This can be a dicey time as many new leads are damped off due to incorrect watering.

Natives, both epiphytes and terrestrials are now at their peak flowering. The natives generally only last a couple of weeks and it does not take too many warm days to knock them about. After flowering is a good time to divide them or pot them on into the next sized pot adhering to the big enough to allow 2 years growth rule. The aim with divided plants is to give them a good deal of time to re-establish before the heat of summer as well as a longest possible growing season. Native epiphytes usually send out new growths at this time of year. When the new growths come away try and keep water off them, watering the pots and not the plants being a preferred option to avoid losses of new growths especially to those plants that are prone. This can be easier said than done. Take any of the *Dendrobium Yondi* hybrid's for example. Word has it that the sheaths that support the developing growth should be pulled away from the leaves as any water lodging there leads to rotting off. This is a good suggestion for all plants that carry this susceptibility and the procedure is called sheath pulling. Many natives will only give you one growth a year and others are a little more forgiving and send out a replacement later in the season. This lead will not flower until the following season as it has had no time to mature before the onset of the cooler weather again.

Divided plants should be kept a little drier to encourage new roots and avoid over potting. Ensure the bases of the canes are kept at surface level. Too many times I see plants on the trading tables where the plants growth "eyes" are buried in the mix. This can lead to the growth eyes rotting and once the eyes go, if the plant does not throw out a keiki (plantlet, instead of a flower), the plant is doomed and will not grow any further.

As the native dendrobiums peak this month my eyes turn to the *sarcochilus* collection and with it the forest of spikes developing. It is going to be a good year but I also take note of my diary entries in relation to thrips that caused major damage to the flowers last year. I'll be taking added precautions this year to avoid the repeat of 2012. These charming miniatures will flower right up to Christmas giving us a longer flowering season. I usually increase the potash levels with my feeding now to hopefully give me better substance and colour in the flowers.

Continue with Aquasol, Thrive or Campbells Blue for the *Zygopetalums*. These fertilisers are high in nitrogen to keep the new growths powering away. It is also a good time to spray with mancozeb this month to help keep developing growths clean of fungal spots. Keep an eye out for caterpillars as they are fond of the new leaves in particular.

Oncidiums are also on the move and are one orchid where the gradual increase in watering and feeding programme is recommended but it is best to wait till the growths get a bit of size and show new roots before giving them too much. Oncidiums are one plant that relish light and air movement and will quite often languish on a bench yet thrive when hung. Remember hung plants dry out faster than benched plants. And if you have hanging plants then ensure any plant that is underneath them does not get over watered or receive the wrong feed or pick up a pest or disease from above. Better still, don't have a plant directly underneath if you can help it. Most growers have the hanging plants over the paths.

Spring flowering cattleyas are now out and the autumn flowering plants will soon show new growth buds. Their feeding and watering plans should also be a gradual increase as per oncidiums. If your bracts surrounding the new growth go black that is a sure sign of a fungal issue developing and I would be spraying with a contact fungicide just in case.

Soon we will have to start thinking about increasing shade levels again. Once the equinox is reached on the 21<sup>st</sup> the suns intensity really picks up. I have made a note of plants that suffered sunburn and heat damage last year and these will be moved to cooler and shady positions in an attempt to arrest further damage this year. Whilst most damage is cosmetic, this damage can stay on the plants for many years before the offending leaves finally fall off. Damaged leaves also create a pathway for disease to enter. I also took note of plants that suffered from too much water this year as well. Most of these we under the hanging and mounted orchids. A good learning exercise is to learn from your mistakes and take corrective measures the following year to ensure it does not happen again.

With the warmth of spring comes another flush of aphids and they are particularly fond of flower spikes and new growths. These nasties will retard new growths and flowers and are a major pest in the transfer of diseases to plants. Keep a close eye on all plants as they multiply rapidly. Also look for evidence of their honey dew secretions. I have seen these secretions on the leaves of my dendrobiums yet no aphid. The answer was to look up and check the hanging plants and sure enough there they were. Also inspect flower spikes, especially native *Dendrobium speciosum* and the like as the aphids love these too. Micro snails and slugs of the type that live in the pots will visit your spikes nightly as well until there is nothing left. Caterpillars will be on the increase as well and very soon ants will be on the march. Wonderful creatures ants are. They transfer their little collection of soft scale to the most tender parts of our orchids as a reward to the scale for providing honey. The honey eventually going mouldy and showing up as a black soot on your plants. The same black stuff we find on our citrus trees. A closer look will reveal hundreds of scale and a heap of ants in the immediate area.

As September ends and October moves in I enter the most labour intensive part of the year and the one I least look forward to. Potting and dividing. Steve Howard

### **ORCHID CLUBS IN SOUTH AUSTRALIA – General Meeting Times**

**THE SOUTH COAST ORCHID CLUB OF SOUTH AUSTRALIA:** Meets on the first Wednesday of the month at St. Bernadette's Church Hall corner of Walsh Avenue and South Road, St. Mary's. Beginners Class starts at 7.15p.m., meeting at 8.00p.m.

**THE DAYTIME CHAPTER:** meets at the Lou Kesting Hall, off Broadway, South Brighton on the second Thursday of the month at 2.00p.m.

**THE SOUTHERN REGIONAL GROUP:** meets at Carrickalinga House, 17-19 Torrens Street, Victor Harbor at 2.00p.m. on the 3<sup>rd</sup> Sunday of the month.

**THE ORCHID CLUB OF SOUTH AUSTRALIA:** meets at 8pm in The Enfield Community Centre, 540 Regency Road, Enfield on the 1<sup>st</sup> Thursday of the month.

**Daytime Group:** meets from 2.00p.m. to 4.00p.m. in the Enfield Community Centre, 540 Regency Road, Enfield on the 2<sup>nd</sup> Friday of the month.

**THE MURRAY BRIDGE AND DISTRICT ORCHID CLUB:** meets at 1.45pm in the Seventh Day Adventist Hall, corner Myall Avenue and Standen Street, Murray Bridge on the 4<sup>th</sup> Sunday of the month.

**NORTHERN AND EASTERN DISTRICTS ORCHID SOCIETY:** meets in St. Philip's Church Hall, Galway Avenue, Broadview from 7.30p.m. on the 3<sup>rd</sup> Thursday of the month.

**THE SOUTH AUSTRALIAN ORCHIDACEOUS SOCIETY:** Meets at the Adelaide West Uniting Church Hall, 312, Sir Donald Bradman Drive, Brooklyn Park from 7.30p.m. on the 3<sup>rd</sup> Wednesday of the month.

**THE NATIVE ORCHID SOCIETY OF SOUTH AUSTRALIA:** meets at 7.30p.m. at St. Matthew's Church Hall, Bridge Street, Kensington on the 4<sup>th</sup> Tuesday of the month.

**THE CYMBIDIUM CLUB OF SOUTH AUSTRALIA:** Meets at 7.30p.m. at Burnside Community Centre, 401, Greenhill Road, Tasmore on the 4<sup>th</sup> Wednesday of the month.
